

TouchTunes TEMPO

TEMPO is TouchTunes' all new fleet management tool. Completely redesigned for today's business needs, TEMPO boasts several new features and design elements, making it our most innovative and efficient tool ever!

RESPONSIVE DESIGN

Quickly and easily manage your TouchTunes route right from your desktop, tablet or smart phone.

SIMPLIFIED MUSIC MANAGEMENT

Managing your 1-credit Favourites is much easier and more efficient with the new Quick Manage Tool.

LIVE JUKEBOX STATUS

Help boost your route revenues by reviewing your jukebox statuses in real time. Know when your best locations are turned off or paused during prime time.

REMOTE SERVICING

Take action by using your desktop, tablet or smart phone to turn on a jukebox, unpause it, force a call or reboot it. This can help maximize uptime and revenues while reducing service calls.

Start managing your Playdium jukeboxes TODAY by logging into TEMPO using your existing dashboard credentials at: <https://tempo-uk.touchtunes.com>. Contact your sales representative if you would like additional information or training!
